

Dissemination authorisation request

It gives us great pleasure to inform you that CRIPEL, *Les Cahiers de Recherches de l'Institut de Papyrologie et d'Égyptologie de Lille*, is about to disseminate its entire collection from 1972 to 2017 on the Persée portal (persee.fr). This portal, set up with the support of the French Ministry of Higher Education and Research, and administered by UAR Persée (CNRS/ENS de Lyon), is designed to host collections of French-language scientific journals and books. Digitised volumes in image and text mode are made available on Persée free of charge and on a non-exclusive basis.

CRIPEL is a partner in this operation to promote the scientific heritage of French publications. At a time when the results of research must be disseminated on the Internet if they are to be recognised, putting the collections of these journals online will promote the visibility of French-language research within the international scientific community, and help to enhance the value of our researchers' output.

In order to carry out this operation in compliance with the intellectual property code, it is necessary for each author, or their heirs, to give explicit authorisation (on a non-exclusive basis) to reproduce and disseminate on this portal the articles or contributions they have published in CRIPEL.

Persée undertakes to ensure that each contribution is always accompanied by the information necessary to be identified and cited (author, title reference, publication date, etc.).

Persée also commits to removing or concealing any contribution or illustration in the event of a complaint by its author or heir.

In the hope that you will once again place your trust in CRIPEL and agree to be associated with this project, we kindly ask you to inform us of your decision by returning the attached form by email to cripel-persee@univ-lille.fr.
